

Becoming Full Stack Engineer

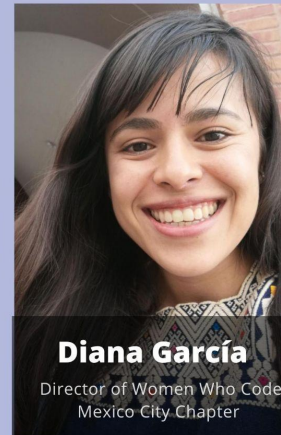

An event for women by women

Co-organized by:

WOMEN WHO
CODE®

About the hosts:

Guidelines

- Please use your Full Name in the zoom session
- The bootcamp starts at 5:00 p.m. pst every day. Mon-Fri from April 18 to May 4th
- A capstone project is shared in the last day of the bootcamp, if you pass, you'll receive extra points and a badge as a Full-Stack Engineer entry level - talent@itjuana.com
- You will have access to MiCoach to download your participation certificate - remember to use the same email you use for registration on EventBrite.
- You can unmute yourself to ask questions. Please raise your hand.
- Sessions are recorded and will be available in miCoach.

Diana García

I am a Software Engineer - Computational Biologist. I build software to improve our understanding of complex diseases such as cancer.

I truly enjoy learning from other women and sharing knowledge with them.

Diana Colin

I'm a Software Biomedical Engineer
and a Jr. Full Stack Engineer

My quote: "If there are diverse ways to
code, why not have diversity and
inclusion in the technological area as
well?"

Iliana Carrasquedo

I'm a Frontend developer and a QA Tester.

My passion for self-study has led me to create and develop web pages that tell stories, transmit emotions and are appropriate from the visual to the functional.

I truly believe women are also the future in Technology.

Aylin Yepez

Coded to win

Becoming a Full Stack
Engineer Bootcamp

Sravani Kandarpa

I am a software developer. I majorly work with Microsoft stack.

When I am not working I enjoy painting and cooking.

Looking forward to learn from you all.

Idalid Avila

I am currently pursuing an undergraduate degree in Computer Systems Engineer.

I'm very passionate about developing software. I started with this way since 2013, when I was in high school.

I'm very creative, dreamy, good leader and always I find the way to innovate.

Becoming a Full Stack
Engineer Bootcamp

Claudia Rodríguez
